2026 NewGen NGB21S

Semi-Off-Road Luxury Caravan Built for Remote Camping & Off-Grid Adventures

The 2026 NewGen NGB21S is a 21ft tandem-axle semi-off-road caravan engineered to tackle rough corrugated roads, remote tracks and off-grid destinations with confidence.

Unlike many lightweight European caravans, the NGB21S is built on a heavy-duty steel chassis with full independent torsion suspension and a premium off-road hitch, making it ideal for exploring New Zealand's more remote locations.

Inside, you'll find premium touring comfort with a permanent island queen bed, separate shower and toilet, custom storage layout and high-capacity off-grid power system.

Buy with confidence from Motor Hub, New Zealand's exclusive authorised NewGen dealer.

Key Highlights

- Built for Semi-Off-Road Travel: Heavy-duty standard torsion 3500kg tandem-axle suspension, reinforced semi-off-road steel chassis with 10" raiser, 6" A-frame with tray, 16" alloy silver/black rims with good ride all-terrain tyres, and premium DO35 off-road bottom hitch designed for challenging terrain.
- Powerful Off-Grid Capability: Premium Projecta PM200 lithium battery management system, 100Ah lithium battery on chassis, 2000W inverter with AC transfer switch, shunt for inverter tracking, and 400W (2 x 200W) of fixed rooftop solar power.
