Camper 20.6ft – Specifications Overview

Built for both comfort and capability, the Camper 20.6ft is designed with ideal proportions and smart engineering to support all kinds of travel—whether you're heading off-grid or touring the open road.

With a body length of 20.6 feet and an overall length of 8,700mm, this van offers generous interior space while remaining easy to tow. Its overall height of 3,100mm allows for a spacious feel inside, and the width of 2,350mm ensures comfortable living and movement throughout the van.

When it comes to performance, the Camper 20.6ft delivers solid towing and load capacity. With an ATM (Aggregate Trailer Mass) of 3,200kg and a TARE weight of 2,420kg, it provides a payload capacity of 780kg—giving you the flexibility to bring everything you need. The ball weight of 140kg ensures stable towing and a balanced drive.

Whether you're planning short getaways or long-haul adventures, the Camper 20.6ft is built to handle the journey—offering the perfect blend of spacious design, practical weight distribution, and thoughtful construction.
